

Yaqui Valley Pesticides

Some of these are in Spanish but easy to translate. These are pesticides used in aerial spraying, no listing of individual farmer formulations possible.

While some of these pesticides are now banned in the US, they were in use in the US and Canada when the children under study were born. The list also contains newer pesticides that we have been told were “safe” and still on the market but recent research shows that may not be that “safe” after all, like Malathion. Also remember, Dursban and Diasinon still on US/Canada market in 2000 with phase-out ban.

Pesticides seen in Dump: Yaqui Valley August 2000

Proclaim
Clofinio
cosmocal
Malathion
Lorsban
Endosulfan 35%
Methomyl
Dimetoato (Perfekthion)
Metamidodos
Methomyl
Parquat
Oxamil
Acetamiprid
Diazinon
Dursban

Oral and Written History of known pesticide use:

1959: DDT, Endrin, Dieldrin, Toxafene
1961: BHC, Heptachlore, Paration, Meticico carbonate
1969: DDT, Paration, Drins (?)
1970 Dimetoato
1971 Melamidofosm firmutudes (herbacides)
1973: Clordimeform, Malation (mosquito control)
1977 BHC, endrin, clordinaform, aldicarb, dierolafos, EPN, dimeteato, malation, sulprofu, acefate o motoato, malation, clartiofos, EPN, metomil, carbaril
1982 Bigin with and continue with organophosphates, Endosulfan, permethrina, fenvalerate, deltamethrina
1983: Pyrethrines, endosulfen, cipermetrina
1987: Aldicarb
1988 Stop DDT as general pesticide, Added thiodicarb
1989 Cialantrina (paration metilico banned).

1990 Metamidofos

1996: People say DDT and other banned chemicals still easy to obtain, DDT found in those poorly run blood samples.

2000: Government approved 900 formulations in 60,00 preparations
Used: DDT, HCB, toxafeno and endrin(mendrin), aldrin, dieldrin

In water: 1986:

Dieldrin

Dndrin

DDT

Known use: 1986

Lorsban

Parathryon

Sevin

1990

lindane, dieldrin, endrin and related isomemers.

1997: Done at ITSON, ITSON does pesticides only - no herbicides
endrin, aldrin, dieldrin, HCB, DDT, Dndrin, malation, paration, forato, carbaryl, corbofuron, 2_4_5D
Kids overexposed to lindane, paration metilico.

In home use: Raidolito (Raid)

Crops:

Chili and other peppers: sprayed 25 times in 7 months, similar with other vegetables

Cotton

Soy beans

Mangos

some maize/corn,milo
